THE WARD-BELMONT SCHOOL

WARD-BELMONT makes no statement which she is not prepared to make real to the earnest, painstaking student. Her catalogues are published to give definite, trustworthy information, and they embody the same fine principles of sincerity, truth, and honor which she earnestly attempts to inculcate in her students.

HISTORICAL SKETCH

Ward-Belmont is a union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865 by William E. Ward, D.D., and Belmont College was founded in 1890 by Misses Ida E. Hood and Susan L. Heron. In June, 1913, the two schools were united on the Belmont campus under the charter name, "The Ward-Belmont School." Ward-Belmont is not forgetful of her past; she honors her founders, she reveres the two parent schools, and points with pride to that long line of graduates and students who have gone out into life's service, and whose happy memories and genuine affection for the old schools now bind them to the new.

A record of long service in a national field constitutes the richest heritage and the real asset with which Ward-Belmont pursues her new and larger life.

NASHVILLE AND ITS ATTRACTIONS

Nashville has an enviable record as an historical, educational, and cultural center.

The chosen location of great universities, professional schools, colleges, and preparatory schools, Nashville has established a far-famed reputation as a center of learning. Ward Seminary and Belmont, through their long and honored careers, have contributed much toward winning for the city of Nashville her merited title of "The Athens of the South." These two schools, in coöperation with Vanderbilt University and George Peabody College for Teach-

ers, have given a distinct charm and atmosphere of culture which makes this city an ideal home for students.

On an imposing eminence the State Capitol stands, an interesting example of classic architecture. In its grounds is the tomb of President James K. Polk. Located at a central point in the Centennial Park is a facsimile of the Parthenon, true in every detail. On one of the many beautiful drives and car lines is Belle Meade, for many years a celebrated stock farm. Twelve miles from Nashville is the Hermitage, the home and burial place of Andrew Jackson, President, statesman, and warrior. Not far from the Ward-Belmont campus is the battlefield of Nashville, and near by stretches the scene of the battles of Franklin and Stones River. Within a few hours' ride are Lookout Mountain and Mammoth Cave. Nashville is within easy reach of all the historical points of Tennessee.

In addition to the cultural advantages offered by Nashville through its educational and historical interests, an opportunity is given by the city to hear many of the most famous artists, readers, and lecturers. Nashville thus affords the means for acquiring a most liberal culture.

THE CAMPUS

Ward-Belmont stands in the beautiful hilltop park formerly owned by Belmont College, and to both the grounds and buildings handsome additions have recently been made. The campus, containing thirty acres, is surrounded by one of the best residence sections of Nashville. Embowered in trees and shrubs which represent the artistic planting and cultivation of sixty years, this naturally picturesque park makes a campus of unusual beauty. It is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railway station, the shopping districts, and the churches of all denominations in the city are easily accessible by car. The site is on the highest elevation in the Vanderbilt University and the Peabody College sections, and is within easy walking distance of either.

CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school work. Pupils from more northern States, as well as those

from farther south, find here a school home unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the phenomenal health record of the school.

Ward-Belmont realizes just how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is filtered, sterilized, cooled, and is supplied in hygienic fountains throughout the buildings; a trained and experienced nurse has charge of a well-ordered infirmary. Though the school has been singularly free from communicable diseases and has never been visited by an epidemic of any kind, yet an isolation hospital is maintained as a guard against such an epidemic. A further precaution is the requirement that a certificate of good health be furnished by every resident student.

Ward-Belmont realizes that in order to reach the best mental as well as physical results, one must have good, nourishing food. Especial care is paid, therefore, to the meals and their preparation. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining hall is commodious and attractive. The menus are supervised by a trained dietitian. A diet table under the supervision of this dietitian is maintained for those whose health requires it.

In addition to the physical safeguards and the abundant supply of wholesome, nutritious food, the regular habits and ordered life of the school, and physical culture scientifically adapted to the student's individual needs, are potent factors in promoting the excellent health record of Ward-Belmont.

BUILDINGS AND EQUIPMENT

The plan of the buildings is that of a quadrangle with one open side. On the north side of this square are located Fidelity, North Front, South Front, and Founders Halls with the drawing rooms, the auditorium, and the dining rooms; on the east, two other residence halls, Pembroke and Heron Hall; and on the south, the Academic Building. In addition to these there are three residence homes—Leftwich Lodge, Hudson Cottage, and Rose Cottage. Other buildings

on the campus included in the school plant are the music practice house, tea house, green-houses, and at a greater distance from the residence halls the isolation hospital and the heating plant. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914 at a cost of \$150,000. In this building are the large, well-lighted classrooms, the library, the science laboratories, the expression and art studios, an assembly hall, and the administration offices. The library contains about six thousand volumes. Under the care of experienced attendants, it is open at practically all hours. With its well-chosen books of reference, with its reading tables supplied with standard magazines and daily papers, it is an inviting spot to the casual reader and the serious student. This building also contains a white tiled swimming pool, and a gymnasium well equipped with apparatus, showers, dressing rooms, and lockers.

Since the dormitories are entirely separate from the classrooms, they have a quiet, homelike atmosphere. The residence halls are all practically new, freshly furnished, and in their arrangements meet every demand of comfortable and refined home life. There are ample sanitary appointments and baths on every floor, while in Pembroke and Heron Halls, which are arranged in suites, there is a bath between the two rooms of each suite. Each room accommodates only two girls, and is furnished with a rug, bureau, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

Interested parents are requested to visit Ward-Belmont, as only a personal inspection can give an adequate idea of the way in which the comforts of a well-ordered home have been combined with the essentials of a well-equipped school.

WOODY CREST

Instead of Edenwold, the former country club of Ward-Belmont, the school has been fortunate in securing Woody Crest—a fine old estate more accessible than Edenwold.

Woody Crest was built for a home—a hospitable place with privacy assured by its surrounding hundred and forty acres. It was purchased just as it had been occupied, with the furniture appropriate to a well-appointed home. Its quiet and beautiful location commanding a view of the hills, its wide verandas and spacious reception rooms, make it an ideal country club. There are gardens with masses of roses and peonies, and sloping lawns shaded with great oaks and maples surround the house. The farm is large enough to be of great value in furnishing fresh vegetables, milk and cream to the school household.

FACULTY

While Ward-Belmont has continual pride in her location, buildings, and equipment, yet she is ever conscious of the fact that the real strength of any school must lie in its teaching force. Ward-Belmont spares no expense in selecting her faculty, and in the various departments are men and women of the highest ideals who have been educated in standard colleges and universities of this country and abroad, and who have had successful experience in the classroom. In the literary work, in Music, Art, Expression, Home Economics, and in Physical Education, the same high standards are upheld. Ward-Belmont believes that true education is character building, and selects her faculty with this in mind. That the inspiration from personal touch between teacher and pupil may be kept constantly at the maximum, the school maintains the approximate ratio of one teacher to ten pupils. Ward-Belmont is characterized by cordial friendship and sympathetic interest in the attitude of the faculty toward the students in all the activities of the school.

HOME LIFE

The President and his family and many of the teachers live in the residence halls, and their presence as constant advisers and sympathetic friends contributes much to that spirit of comradeship and good cheer so evident in the school. Constant appeal is made for sincere coöperation on the part of every student in maintaining wholesome standards of school living on the principle that kindness and confidence are more efficacious than stringent rules.

The effect, therefore, is not one of repression, but of self-restraint, resulting in that character development which comes with a growing sense of obligation. Handsome parlors, attractive corridors, inviting rest rooms on every hall, and the unusual feature of a roof garden for recreation, all attest the care with which the home comforts and pleasures have been anticipated.

SOCIAL CLUBS

Ten clubs with a membership of thirty to fifty each are a pleasant feature of the social life of the school. Membership in one of these clubs is expected of every student. They meet formally once a week for social, literary or musical programs, and informally at other times for recreation. A spirit of loyalty in the clubs develops in the students the best qualities, mental and moral as well as social.

RELIGIOUS ACTIVITIES

The Christian homes all over the land are sources from which our students come. Though no sectarianism is lived or taught, every effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association in which the members of the faculty coöperate heartily with the students. The Association and the school jointly employ a trained and experienced secretary, who devotes her entire time to Y. W. C. A. work. The Sunday School conducted by members of the faculty, systematic Bible training and mission study, daily devotional exercises at chapel, and frequent visits by the pastors of the city, are among the agencies by which the school life is made wholesome and inspiring. The spirit of church loyalty is fostered by requiring each student to attend the church of her choice on Sunday morning.

DRESS AND HOUSEHOLD ARTICLES

Extravagance and extremes in dress are firmly discouraged. Every boarding pupil is required to have as the school uniform a plain tailored suit, either of dark blue or of black. This suit may be purchased before coming to

Nashville if a patron so desires. A sample of the shade of blue that is to be used will be furnished on request. As a part of this uniform are to be worn a white waist, dark shoes, and a black hat simply trimmed with black ribbon or velvet, without flowers, feathers, or any color. This suit must be used for street and church and on all public occasions. Afternoon and dinner dresses with approximately high neck and long sleeves are used for evening wear. No uniform is required during the school day, but the clothing worn should be simple and suitable for school use. All boarding pupils are expected to provide themselves with bath robe, bedroom slippers, laundry bag, hot-water bag, umbrella, raincoat, overshoes, thick walking shoes, a comfort, pair of blankets, dresser and washstand scarfs, and one trunk cover. Trunks must be marked with full name and home address. All articles to be sent to the laundry must be clearly marked with the full name of the pupil. An abundant supply of table napkins, towels, sheets, pillowcases, and bedspreads is furnished each student at a charge of ten dollars for the year.

LECTURES AND ENTERTAINMENTS

The presence in Nashville of great universities and professional schools insures the coming of famous lecturers and entertainers. Lectures on a great variety of subjects, free to the student body, are delivered during the year by men and women who are experts on the themes they treat. Artists of international reputation are frequently brought to the city by Ward-Belmont and other organizations. In recent years Ward-Belmont students have heard the following, among other notable people:

EXCURSIONS

Nashville has an interesting historical and geographical setting. Every year our pupils are given opportunities to visit the historical places of interest in or near Nashville. It has been the custom to take a yearly trip to Washington and to visit en route Lookout Mountain, Natural Bridge, Luray Caverns, Norfolk, Portsmouth, and Virginia Beach. Such a trip was taken in 1917 on the occasion of the presidential inauguration; the party visited all the points mentioned, including New York and Niagara. An Eastern or Southern trip is made during the Christmas holidays, when a sufficient number of pupils apply for it. In the past we have had school parties spend the vacation in Europe.

Owing to war conditions we can not offer such extensive trips for the immediate future, but they will be resumed as soon as conditions permit.

MUSIC, ART, AND EXPRESSION

In the education of girls and young women, it is important that a proper balance be maintained between Literary subjects and the Fine Arts. In this way only can a woman be prepared best for her mission in the world. The work of the school in the Liberal Arts is of the highest order, and equal emphasis is placed on Music, Art, and Expression in all their branches. Frequent music recitals of the highest order tend to develop an appreciation for that which is best in this rich field. Students are always made welcome to the Art studios and the kiln, and special exhibitions are given to cultivate a love for the beautiful in color

and form. In the School of Expression a weekly class lesson in Poise and Public Speaking is offered to all boarding students without extra charge. Attractive studios and an inspiring environment make the work of these departments a genuine delight. The teachers represent the best culture and training of this country and Europe. They have established an enviable reputation for Ward-Belmont as one of the distinct centers for the training of young women in these subjects so important in the development of æsthetic taste and temperament.

HOME ECONOMICS

The lifting of the home maker's work to its proper place among the sciences is perhaps one of the most significant recent educational reforms. Domestic Science and Domestic Art are now regarded as essential in a well-rounded education for women. Responding to this progressive movement, Ward-Belmont maintains a thorough department for the study of the home and its varied problems. A weekly class demonstration in Domestic Science, or a weekly lesson in Household Decoration, is offered to all boarding students without extra charge. With its comprehensive courses, its attractive and well-equipped laboratories, and with its able corps of teachers, this department of practical worth holds an established place among the most popular activities of the school.

RED CROSS COURSES

Realizing the peculiar situations of this year, the United States Bureau of Education has said in one of its letters: "Classes giving practical instruction in home care of the sick should be organized for all women students, and the most recent knowledge concerning the care of infants and children should be available to them. Special attention should be given to diet requirements for maintenance of health and efficiency; methods of eliminating all waste from the household; and intelligent use of the more abundant foods for those which are either scarce or of better keeping qualities."

In order to meet these unusual needs, Ward-Belmont is offering special courses in First Aid and Home Nursing.

The work is conducted by government nurses and dietitians, and the regular government examinations will be given. The course will continue throughout the entire session and will be divided into three parts—First Aid, Home Nursing and Elementary Hygiene, and Surgical Dressings. A strong course in Dietetics is offered as a part of the regular work of the Home Economics Department.

Credit in the regular course will be given on this work.

SECRETARIAL AND BUSINESS COURSES

To meet still further the unusual needs of the present time, Ward-Belmont is offering special courses in Stenography, Typewriting, Bookkeeping, and Secretarial work, thus giving a thorough insight into the practical fundamentals of business.

There is a growing realization that in the future women must be prepared, not only to conduct the business affairs of the home, but also to share in the leadership of civic affairs, and in many cases to fill positions of executive responsibility or to manage their own estates.

PHYSICAL CULTURE AND PLAYGROUND SUPERVISION

Thorough courses are offered in Physical Education and in Playground Supervision, subjects which are being emphasized to-day as never before in education. The campus affords opportunity for outdoor games, the gymnasium is so equipped that exercise may be adapted to the individual needs of the pupil, and the swimming pool is modern at every point and free to all resident students. Trained teachers are in charge of every feature of this department. The work in Playground Supervision is so planned that the students enjoy the recreation, and at the same time grasp the methods by which directed play may be made to promote health, stimulate the intellect, and lift the moral tone of any community.

COURSE OF STUDY IN LIBERAL ARTS

Ward-Belmont offers a six-year Classical Course, corresponding to the four years of a preparatory school and the Freshman and Sophomore years of a standard four-

year college. A student who contemplates entering a certain college or university after the completion of the Classical Course should so advise the Dean in advance, that the subjects which she takes in Ward-Belmont may be those required by that institution.

The General Course, of equal length, is provided for the larger number who do not intend to do further college work after graduation from Ward-Belmont. In this course more liberty in choice of subjects is allowed. With certain limitations, Music, Art, Expression, and Home Economics may be included and counted toward graduation.

At the end of the first four years of the course, corresponding to the high school period, students may receive either College Preparatory Certificate or the High School Certificate, provided the proper balance has been maintained by the completion of courses prescribed. The College Preparatory Course is offered for students who expect to complete the Classical Course. Those earning the Certificate for the completion of this course may be admitted without examination to the leading colleges and universities which admit students on certificates. The High School Course is intended for students who plan to complete the Ward-Belmont General Course.

ADVICE ON CHOICE OF SUBJECTS

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil's course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. Prospective patrons are urged to co-operate with us in working out a course of study in advance of the opening days of the session in order to allow more deliberate consideration of individual needs. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually not allowed. Continuity of effort and the greatest advancement can in this way be secured.

COURSES OF STUDY

The department of History endeavors not merely to make its courses count for mental discipline, but to secure a thorough understanding of society, a comprehension of the principles on which everyday affairs are conducted and a training in sympathetic judgment. The value of History as a means of interpreting economic and social expediency is stressed, and the practical worth of the subject is established by its intimate correlation with English, language, art, and current events. Throughout the course, emphasis is placed on historical geography, map drawing, notes, and reports of collateral readings.

HISTORY AND APPRECIATION OF ART

The value of the work in this course is twofold. It is a part of the record of human development, and so a humanitarian and mental discipline subject, as is History

proper. It is also a study of the laws underlying artistic effect, and as such has a distinct culture value. Both phases of the subject receive careful consideration. The work is done by means of illustrated lectures, printed outlines, reproductions, stereopticon slides, projectoscope, etc. Extensive reading and individual reports required.

The rise and development of architecture, sculpture, and painting from the earliest periods through the Renaissance will be studied, with emphasis on the Greek and the Renaissance periods.

HISTORY AND APPRECIATION OF MUSIC

This course is one of Musical Appreciation upon a historical basis, dealing with the important epochs and styles in the evolution of Music and its relation to the kindred arts. It aims to enable the student—not necessarily a music pupil—to understand and enjoy the master works of the Classic, Romantic and Modern schools of musical composition through a knowledge of the aesthetic and psychological principles involved in their development. The practical and also highly cultural results accruing from this study are recognized by our leading institutions. The work is given by means of lectures, material from text, collateral reading, outlines and reports on assigned topics. Abundant illustrations are given by means of the Steinway Duo-Art Pianola and the Victrola, while the programs of visiting artists are also studied and analyzed. Text: Mason's Appreciation of Music.

ECONOMICS AND SOCIOLOGY

The purpose in this department is to teach the fundamental principles of both economic and sociological science in such a way as to develop an intelligent interest in public affairs, to insure some understanding of the laws underlying the welfare and progress of society, and to inculcate the desire to apply these principles to the duties of enlightened citizenship.

MATHEMATICS

The work done in the department of Mathematics is closely correlated with business and the physical sciences. It is the aim also to develop in students the power and habit of concentration, of clear, consecutive independent thinking, and of precise expression. These aims largely determine the courses offered and the method of their presentation. A constant effort is made to render the elective courses so valuable that they will be attractive to the average student.

Those who present credentials from approved College Preparatory Schools, High Schools, or Colleges may be admitted without examination, on probation, to the classes for which their former work seems to have prepared them.

POINTS

1. *Definition.*—Points are counted as *preparatory* or *college*, according to the value of the courses. In literary subjects, a *preparatory* point is the equivalent of a Carnegie unit and represents four hours of sixty minutes each in Freshman, Sophomore, Junior, and Junior Middle Classes; a *college* point is the equivalent of three yearly or six semester hours and represents three hours a week for a year in the Senior Middle and Senior Classes. Two hours a week for a year, or three hours a week for one semester in which a course is completed, count a half-point. Certain one hour courses may be combined with certain two hour courses to count a full point.

In Music, two lessons a week and one and one-half hours' practice daily merit one-half point, preparatory or college, according to the recommendation of the teacher; in Art, eight hours of studio work a week, one point, preparatory or college, according to the recommendation of the teacher; in the Musical Sciences—Theory, Harmony, History and Appreciation, Ear Training—each two recitations a week, one-half point each, preparatory or college, according to the course taken; in Expression, four hours of prepared class work, and other collateral and assembly work each week, one point, preparatory or college according to the course taken; in Home Economics, one lecture hour and two double laboratory hours a week, one-half point, college or preparatory, according to the course taken.

2. *Number recommended:* The number of points recommended as a year's work for the average preparatory student is four; the minimum requirement of work is represented by three; for the average college student, five; minimum requirement, four.

3. *Language:* No single point in a language, except French A, German A, or Spanish A, may be counted toward a certificate or diploma, and two of these courses may not be counted in the same year.

4. *Special Subjects:* Not more than a total of five points in Music, Art, Expression, Business, and Home Economics may be counted toward a diploma. Only one such point may be counted in a single school year. Credit for Theory and Harmony taken elsewhere, will be based upon examination. All other work in Music, Art, and Expression to be credited in a Liberal Arts Course, must be done in Ward-Belmont, and must be approved by the heads of the departments concerned.

5. *Credit:* If work represented in Ward-Belmont by a college point has been done elsewhere, but not in college, an elective preparatory point will be allowed; college credit will not be allowed, unless sufficient supplementary work is done in Ward-Belmont to make it equal to the corresponding College Course.

6. *Residence Requirement:* For a Ward-Belmont Diploma, at least four of the required points of literary work must have been earned in Ward-Belmont. In the case of a student who has done equivalent college work elsewhere, official testimonials as to such work and a

catalogue of the college, with the work done fully designated, must be furnished to the Dean. The credit due, in no case more than four points, will then be determined.

CLASSIFICATION

The number of points of work completed at the beginning of a school year determines the class to which a student belongs. Four completed points, as found in either of the two courses outlined, give Sophomore classification; eight such points, Junior Middle. If a student lacks not more than one of the required number of points, she will be given conditional classification.

For Senior Middle standing, fifteen completed points in one of the courses outlined, including all the required points except one through the Junior Middle year, are necessary. Completion of a regular course of a standard four-year high school will ordinarily meet these conditions. If so, such work will entitle a student to Senior Middle standing in Ward-Belmont.

For entrance to the Senior Class, the attainment of a Ward-Belmont Diploma at the end of the school year must be possible.

II. SCHOOL OF EXPRESSION

This department offers to the special and general student an opportunity for thorough and scientific training in Expression. Its aims are: To help the student to “find herself” and to realize her powers and possibilities; to give such training as will develop her individuality; to train the voice and body to act in coördination with the mind; to teach the student how to think sanely and strongly, how to read intelligibly and effectively; to teach her to represent a character without effort; to prepare young women for effective work as readers and teachers of Expression.

A weekly class lesson in Public Speaking is offered to all boarding students without extra charge.

The work of this department is arranged below to cover four years. The Special Certificate in the School of Expression is awarded to those who complete satisfactorily the first two years of the prescribed course, and the Diploma is awarded to those who complete satisfactorily the first three years of the course.

Expression C is designed for students interested in advanced creative and interpretative work, methods of teaching, platform art, and pageantry. Diploma pupils will be given advantage of as much of this training as their time and advancement will allow.

Our special catalogue of the School of Expression contains full information.

III. SCHOOL OF ART

The creative power, which, in a greater or less degree, is the possession of every human soul, should be recognized and cultivated, and that appreciation developed which is the beginning of all growth of Art. The study of Art involves the training of the eye, mind, and hand, and that exercise of both skill and judgment which makes for power in an individual and creates efficiency, no matter what the calling may be. Thus understood, the study of Art should have a place in every liberal education. The Ward-Belmont studios are in the new Administration and Academic Building, and embrace five large rooms with excellent light. Students of college advancement, specializing in Art, are seriously advised to elect History and Appreciation of Art as one of their literary subjects. In every branch of the School of Art the object is to make the pupil proficient and to give her a foundation upon which she can build. The methods of instruction are varied, and are such as have been found to be the most efficient in developing the possibilities of each student, and in giving her the means of artistic self-expression. The student is taught to use and develop her innate ability; she is taught to recognize ideas and to evolve them, to see facts, and to express them according to principles as well as to feelings. Stress is laid on the fact that intellect is more essential in art expression than sentiment.

STUDIO CLASSES

I. Elementary.—The first steps in the appreciation of form, proportion, and values are taken in this course. The work is done in charcoal from simple still-life studies, which enables the beginner to learn the principles of drawing, the foundation of all art expression.

II. Life Drawing.—The costumed model is used daily in the life drawing class. After becoming familiar with their materials, students are encouraged to begin work in this most interesting branch of Representative Art. The models are posed to help the pupils in the study of both composition and illustrations, and studies are produced in all the different mediums—oil, water color, chalk, pastel, pen and ink, charcoal, and clay. Quick sketching is practiced frequently, and is most beneficial for all students; and for those making a specialty of illustration, it is essential training in character drawing.

III. Costume Design.—The work in Costume Design is planned to give the student a knowledge of the application of the principles of design to clothes. Every woman not only wishes to be but should be appropriately dressed. If she thoroughly understands line, color, and value, she will be able to use what she has to the best advantage. The work in this course is in two parts: (1) the designing of clothes and (2) the preparation of these designs for reproduction in magazines.

IV. Clay Modeling.—Clay modeling is taught by the use of casts and living models. Casts are used as models for the beginner; and as skill is gained, work from the life model is encouraged.

V. Poster Advertising.—One of the most useful branches of modern art is that of Poster Advertising. It embodies not only some knowledge of psychology but also thorough familiarity with design and color. Poster Advertising is closely related to other forms of art expression. At present posters are a widely used medium of communication between the government and the people; at all times poster advertising is essential to business. The student is taught to weigh the value of various ideas and to express the chosen idea in an effective and pleasing manner.

VI. Outdoor Sketching.—The campus offers ample opportunities for outdoor sketching. Application is made of the principles of composition, values, perspective, and color.

VII. Textile Design.—There is an ever increasing demand in America for good textile designs, and the making of these designs is not only an interesting but a very profitable side of art work. The course includes a study of the various kinds of repeats and their application to silk, cotton, and woolen fabrics.

VIII. Interior Decoration.—The work in interior decoration is designed to meet the needs of those who wish to plan their houses conveniently, decorate them with suitable colors, and select and arrange the furniture artistically and usefully. The principles of mechanical drawing, the theory of color, and periods in furnishing are studied. The pupils work out various problems in the arrangement and decoration of rooms.

IV. SCHOOL OF MUSIC

The Ward-Belmont School of Music possesses the combined virtues of the Belmont School of Music and the Ward Conservatory, both of which had long been the objects of the high praise and the generous patronage of educated musicians both in and out of Nashville. It is more than a complete modern Conservatory of Music; it offers to music students what all of them need—supplementary work in English, Literature, and the Modern Languages. The “mere musician,” the talented player or singer who lacks general education, will be to-morrow more than ever before at a disadvantage, and will be regarded as just so much less a musician. The best musical educators are agreed that general mental discipline should not precede, but should continuously accompany, musical studies; and schools of music are seeking what we have already at hand—intimate affiliation with literary classroom work. Under our system, musical study and practice are not allowed to suffer or be crowded out, but the student is shown how she may become both a cultured woman and a thorough musician. Our musical faculty is now probably the largest and most expensively maintained one in any school for girls in America. No teacher is chosen who has not had the best of advantages, most of them in both this country and Europe, teachers who have supplemented graduation from the leading conservatories with years of special study under the recognized masters of two continents. All of them are tested teachers. Pianoforte, Voice, Violin and other stringed instruments, Pipe Organ, Theory, Harmony, Composition, the History and Appreciation of Music, Interpretation, Ear Training, Sight Reading and Chorus, Ensemble and Orchestral Work, Repertoire and Memorizing, and Faculty, Student, and Artist Recitals—all, and more, take their appropriate places and contribute to the creation of a wholesome and inspiring musical atmosphere. Such an atmosphere is possible nowhere except in a large school where musical education is seriously undertaken by a faculty composed of tested professional musical educators. Frequent student recitals are given, as are recitals and lectures by the faculty and other eminent musicians. Pupils may attend the best concerts in the city. Operas are frequently given by excellent com-

panies, and the world's greatest artists appear in Nashville from time to time. The immediate and convenient value of these advantages at our own door will be the more apparent when it is known that our students may have throughout the season the great musical entertainments, but a very few of which other Southern schools can enjoy, and these only by means of travel and additional expense from the smaller towns into the city. Certificates and diplomas are conferred for finished work in this School.

Eighty new pianos, including eight Steinway Grands and a Steinway Duo-Art Pianola, have been purchased within the last few months.

Boarding students specializing in Music, Art, Expression, or Home Economics are required to take at least one literary course.

Theory is required of all music students in the boarding department who have not previously completed the equivalent of Theory I. Credit for Theory I, if taken elsewhere, will be granted only on the basis of an examination. Those who have such credit will be assigned one of the following: Theory II, Harmony, Counterpoint, History and Appreciation of Music, Ear Training.

DESCRIPTION OF THEORETICAL AND HISTORICAL COURSES THEORY (MUSICAL ESSENTIALS)

Course I.—In order to provide fitting instruction in the first essentials of music for beginners, or pupils who have pursued musical instruction but for a short time, a special theory class is organized in which the necessary rudimentary knowledge may be acquired. The pupil is taught the rudiments of music by keyboard and blackboard work, which supplements the music lesson and greatly aids and stimulates progress. A thorough knowledge of the material covered will be found of invaluable aid in many practical ways—stimulating the pupil's progress and furnishing a musical foundation, without which advancement in the acquiring of a musical education is impossible. Training is given in Notation, Signs, Scale Formation, Keys, Meter, Rhythm, Intervals, Terms, etc., the aim being to familiarize the pupil with the essentials of musical knowledge. Text: Tapper's First Year Theory.

Two hours a week.

Course II.—This course is a continuation of the first course in elementary theory. It is open, however, to more mature music students who have had no previous theory work. The work consists of material from text, music writing, dictation, ear training. The subjects include Notation, Symbols, Meter, Scales, Keys, Intervals, Chords, Terms, Elements of Form, Embellishments, Abbreviations, the orchestral instruments, etc. Text: Maryott's Essentials of Music.

Two hours a week.

EAR TRAINING AND SOLFEGGIO

Discriminative hearing is indispensable to a musical education, and must precede or accompany all lines of music study. The aim of this course is to teach the pupil to think in tones and to so train the ear and the musical feeling that one may learn to sing, name, write, and play what is heard; and to recognize and appreciate not only the melodic effects of music, but the harmonic and rhythmic also. No other branch of music study will be found so helpful in the acquiring of proficiency in reading and hearing music as that of ear

training. Sight singing accompanies the work throughout the year. Beginning with simple intervals and phrases, the solfeggio work progresses by easy stages until difficult passages can be read with fluency.

Course I.—Rudiments. Notation. Recognition by ear of the diatonic intervals of the Major and Minor scale. Solfeggio exercises in simple notation and rhythms; dictation exercises; simple meters and rhythmic units; melodies in Major and Minor chromatic intervals; Major and Minor Triads; simple modulation; exercises and songs in one and two parts.

Course II.—Review of intervals. Recognition by ear of Major and Minor Triads and their inversions; dominant and diminished Seventh Chords; dictation exercises; melodies involving chromatics and modulations; compound meters, complex rhythmic patterns and syncopations. HISTORY AND APPRECIATION OF MUSIC

Course I.—This is a general survey of the evolution of music from earliest times to the end of the nineteenth century, with emphasis upon the composers of the classic period, offering invaluable aid to musical understanding and appreciation. The work consists largely of lectures, supplemented by material from text, collateral reading, notebook work. The following subdivisions are considered: Pre-Christian Music; the Christian Era to the Contrapuntal Schools; from Lasso and Palestrina to Handel and Bach; the Contrapuntal, Classical, Romantic Schools of Composition. Numerous illustrations are given in the classroom by means of sound-reproducing mechanisms. Lectures upon the following subjects are also included: "How to Listen to Music," "The Sonata Form," "The Symphony Orchestra," "The String Quartet." Text: Hamilton's Outlines of Music History.

Open to students above the Sophomore year. Two hours a week.

Course II.—This is a continuation of the first-year course. During the first half of the year a more extended and critical survey of the music by the great masters of the nineteenth century is made, and

the tendencies of present-day musical art are considered at length. During the second half of the year special emphasis is placed upon a more elaborate study of the Opera and the modern schools of composition. In addition to a critical and biographical study, the works of the composers are considered, as regards their methods of construction. Programs of visiting artists are studied, and the subject of musical aesthetics is considered. Illustrations are afforded by means of the Victrola and the Duo-Art Pianola.

Open to students who have completed the first course, and by permission to any advanced music student. Two hours a week.

Course A.—This is a course in Musical Appreciation dealing with the music of the great masters from the time of Bach to the present, based upon a study of form and content. It is designed to enable the general student to understand and enjoy the highest types of musical literature through a knowledge of the aesthetic and psychologic principles involved in their development. Especial emphasis is placed upon the composers and periods that affect present-day musical life. The work is given by means of lectures, material from text, collateral reading, reports and digests of assigned topics. The programs of visiting artists are studied. Abundant illustrations are given by means of the Steinway Duo-Art Pianola and the Victrola. Text: Mason's *Appreciation of Music*.

Open to college students. No prerequisites. Three hours a week.

VI. PHYSICAL EDUCATION

The building of the body, its training for both utility and grace, and its protection from disease and weakness, make the department of Physical Education one of the greatest importance. The gymnasium, the swimming pool, the tennis courts, the basketball, hockey and athletic fields provide ample equipment for conducting this important work. The swimming pool, twenty-three by fifty feet, is constructed of white tile, and equipped in most modern fashion for convenience and sanitation. Physical training is given free of charge to boarding students, and is required of them for at least two periods a week in every year. A physical examination is given each boarding student at the beginning of the session, and a record is kept of the condition of the individual. From this record each student is advised as to when to take exercise, and the kind and amount best suited to her needs. All work is done under expert supervision.

The work of this school includes the various phases of Physical Education. Practical gymnastics, gymnastic games, folk dances and games, and fencing form an important part of the indoor work. The value of aesthetic danc-

ing as a means of acquiring grace and bodily poise has been recognized of late years. Another and very important branch embraces practical work in outdoor games, basketball, hockey, and field sports. Because of the greater hygienic value of outdoor exercise, fully two-thirds of the work is done in the open. Frequent opportunities are afforded for horseback riding. Throughout the department the exercises are suited to the precise needs of the individual pupil, and the constant aim is to bring each girl nearer the physical ideal.

The work consists of gymnastics, folk dancing, swimming, athletics and athletic games, for which there is no charge; and of aesthetic dancing, fencing and riding, for which a charge is made. Every boarding pupil must spend three periods a week in physical training; one in gymnastics, the other two elective. Each morning that the weather permits twenty minutes outdoor exercise is required. At least six class lessons in swimming are required of all students who have not learned to swim.

No course will be considered completed by any student nor may she be graduated from any department until the required work in Physical Education shall have been completed for each year of her attendance. In case of physical disability, the work will be adapted to the needs and capabilities of the student. The required Physical Education for College students counts as one college hour per year, and may be combined with a two-hour course to count a college point.

PLAYGROUND SUPERVISION

An awakened conscience relative to child welfare and a realization of the social and economic value of wholesome recreation for both young people and adults has made the playground movement one of national importance. The demand for trained workers, both voluntary and paid, in this field greatly exceeds the supply, and makes the course one of great practical value. The course embraces the History and Scope of the Playground Movement, Playground Organization, Administration and Conduct, and the Nature and Function of Play. The practical work includes Plain Sewing, Raffia Weaving, and Story-Telling; normal instruction in Folk Dances and Games; Gymnastic and Athletic Games; Athletics and Swimming.

Open to Senior Middle and Senior students. Two periods a week.

TWO YEAR NORMAL COURSE

In addition to the work outlined above, a two-years' course is offered to those who wish to specialize in Physical Education. It is open to students of the college department only, and as prerequisite a course in high-school Physics or Chemistry must have been completed.

BUSINESS AND SECRETARIAL COURSE

Among other results of the present war unusual conditions of great economic significance have arisen. Women are needed in increasing numbers to fill places in industry and commerce, and must depend more upon their own knowledge for the direction of business affairs. Requests have come for an opportunity to secure in Ward-Belmont environment training to fill clerical positions requiring a knowledge of stenography, typewriting, bookkeeping, and business methods, and secretarial positions based on skill in stenography, typewriting, and good English. To meet this need a two year course has been planned, open to High School graduates or in exceptional cases to fourth year High School students. The completion of this course will entitle the students to a certificate.

First Year.—Business English, Typewriting, Stenography, Book-keeping, Business Arithmetic (half year), and one elective which is advised to be French or Spanish.

Second Year.—English A and B or M, Commercial Correspondence, Economics and Sociology, Stenography, Dictaphone, Multigraph, and one elective.

Parents or guardians who register students accept all the conditions in this catalogue.

Except when they are in the Nashville homes of near relatives, pupils from a distance are required to board in the school.

A student who is found to be out of sympathy with the spirit and ideals of the school may be asked to withdraw even though she may not have broken any formal rules.

Rooms in the boarding department are assigned in the order of application, and early registration is advised. Every room in the residence halls was taken last year before the opening.

With the exception of a few single rooms, which may be had at extra cost, each bedroom is for two girls, and is furnished with single beds, separate closets, and other usual comforts.

Windows and doors of residence halls fitted with metal weather strips and copper screens, thus protecting against winter cold and summer insect annoyance.

Every provision against fire—regular fire drills, fire escapes, fire extinguishers, fire hose—though there is no fire in the buildings except in kitchens and bakery.

Boarding pupils are not allowed to visit in the city, except with the approval of parents and the school management. Permission is not granted to spend the night in the city, except in the home of near relatives or that of an official of the school.

Ward-Belmont does not lend money to students. Drafts made by students are honored by us only in cases of emergency or upon the written request from parents or guardians.

Student body of 1917-1918 represents the best homes in thirty-six States and Alaska and Canada, thus affording the broadening educational advantages of a nation-wide acquaintanceship.

Practically every State north of the Ohio from New York to Oregon is represented in Ward-Belmont. Climatic conditions and educational opportunities are such that nearly one-third of our student body now comes from the North.

Boarding students are under school regulations from the moment of their arrival in Nashville until their departure from the city. Parents should not, without conferring with the school, grant social or other permissions in the city before the student enters or after she leaves school.

A modern infirmary in the main building is maintained under professional supervision, and pupils who are too ill to meet school appointments are cared for here instead of in their bedrooms. A remotely isolated hospital is also maintained on the grounds for use in case of need.

School work, missed because of absence of reasonable length, necessitated by the pupil's illness, will be made up, if possible, under the direction of Ward-Belmont teachers, at no extra charge. Work missed for other reasons will be made up under tutors, specially provided, at the pupil's expense.

All permissions of parents or guardians should be written and addressed to the management and are subject to the approval of the management. Even during the visits of parents pupils are still subject to the rules of the school, and must meet all regular classroom or studio appointments.

The school bank, with its system of pass books, deposit slips, checks, and monthly balance reports, not only cares for the spending money of students, but teaches them how to keep a bank account, draw checks, and conduct their own financial affairs. We are not responsible for money or valuables not deposited in our vaults.

Each residence hall is in the charge of a hostess who is always accessible for counsel, and who devotes her entire time to the training of the girls of her household in such questions as appropriateness and simplicity in dress, neatness and order in the bedrooms. In a word, these hostesses undertake to perform the office of the refined mother in a Christian home.

Parents and guardians are requested to coöperate with the school in securing good regular attendance. Students should be present the opening day of school and at roll call after the Christmas holidays, and should remain for the last roll call before Christmas and until the student body is dismissed on commencement day. Much educational value attaches to the commencement season, and no student should miss any part of it.

The following thirty-six States and Alaska and Canada were represented during the past year in Ward-Belmont: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin.

CONCERNING CHARGES AND TERMS

In what follows we have named the lowest terms consistent with the accommodation, equipment, and high quality of teaching furnished. We are prepared to prove to the satisfaction of the discriminating that though Ward-Belmont is, in the class to which it belongs, not an expensive school, compared with schools offering similar advantages it will be found to be several hundred dollars less expensive. The charges are for the whole school year, and reductions cannot be made if the student for any reason, except the long illness of the girl herself, is withdrawn during the year. As Ward-Belmont's rooms are much in demand before the opening, and as applicants who would take the rooms for the whole year are often crowded out by previous applicants, it is neither ethically nor legally right for an earlier successful applicant to withdraw and expect the return of fees paid or due. Hence, in accordance with the uniform custom of other reputable schools, pupils are received for the entire session or part of session unexpired at time of entrance. No reduction will be made for absence immediately preceding or following the Christmas vacation or during the first four or last six weeks of the term; nor will reduction be made for absence during other periods, unless the student is absent on account of her own illness and for at least five weeks, when we shall divide equally with the patron the loss for the enforced absence.

Ward-Belmont has no confidential terms, and no one is authorized to negotiate with prospective patrons except upon the figures and terms named in this Catalogue.

EXPENSES AT WARD-BELMONT, NASHVILLE, TENN.

The school year consists of one term, beginning September 25, 1918, and ending June 5, 1919, with a *Christmas vacation of approximately

two weeks, and the charges here named are for the whole school year. The year's expenses are payable in two installments, in September and January respectively, as stated below.

An advance registration fee of \$25 should be forwarded with the application, which amount will be credited as a prepayment on the school account, but is not subject to return.

Board, room, with bath on hall, tuition in two or more subjects in the Literary Department (including Latin, French, German, Spanish), Physical Training, Athletics, Swimming, weekly class training in Public Speaking, weekly class training in Bookkeeping, weekly class demonstrations in Interior Decoration, use of Library, two girls in a room, each occupant\$550 00

Payable \$375 on entrance, balance on January 1.

Board, etc., as above, in rooms in suites of two with connecting bath, or in rooms with private bath, two girls in a room, each occupant.....\$650 00

Payable \$450 on entrance, balance on January 1.

Single rooms in suites of two with connecting bath, and a few single rooms with private bath not in suites, are available for one occupant each at \$750 for board and literary tuition, of which \$500 is payable on entrance. A few single rooms with bath on halls are available at \$600 and \$650.

A few double rooms are available at \$500 for each girl for board and literary tuition, of which \$350 is payable on entrance.

Students who take work in two or more extras (the equivalent of at least two points—see page 37), and cannot find time in addition for more than the one required Literary subject will be credited with \$25 on either of the above-mentioned sums for "board, etc."

Clergymen in active ministerial work are allowed a discount of seventy-five dollars on the regular course and twenty per cent on extras.

Each of the above-named fees for board and tuition includes Physical Training, so necessary to health, and the modern languages—French, German, and Spanish—all of which, in practically all schools, are charged for as "extras." Swimming is also included without extra cost, as are weekly class lessons in Poise and Speaking Voice, weekly class demonstrations in Domestic Science and Interior Decoration, and weekly class lessons in Bookkeeping—Valuable additions to the Ward-Belmont general curriculum. Our

purpose is to reduce the number of "extras" by including in the curriculum without extra charge subjects usually required for graduation and many beneficial to all students. It is thus evident to one considering these features and the vast additions made to equipment and Faculty during the last few years that the charge for boarding students is remarkably reasonable. It is the policy of Ward-Belmont to include in the regular charge abundant provision for health in physical culture, every literary requirement for graduation, and the essentials for a broad culture. The charges listed below under "Extras" are made for those who wish to specialize in the subjects named or to supplement their work along those lines.
